

success story

randstad app:
a staffing solution that
delivers speed.

randstad

partner for talent.

challenge

A large-format digital printing company—a long-time partner of Randstad for permanent staffing—urgently needed temporary staffing support. The company requested two temporary workers to start the next day with packaging for two weeks. The demand for workers was immediate, and the client was unfamiliar with the Randstad app's functionalities, making it crucial to find a fast and efficient solution.

solution

Randstad quickly introduced the company to the Randstad app, providing a demo the following day to showcase its ease of use. The Randstad team collaborated with the company to create an account and post job requirements for the two temporary positions. Within hours, the positions were filled, and the client's staffing needs were met without delay. The company now has a new way to fill positions for last-minute needs.

- A demo of the Randstad app was provided to the company
- The job postings for the two temporary positions were filled in under an hour.
- The client successfully utilized the app to meet urgent staffing requirements.

Looking for a fast and reliable hiring solution?

download the
Randstad app

at a glance

- A regular client was a first-time user of the Randstad app and was pleased by the flexibility.
- Two temporary workers were urgently needed for a two-week period.
- A swift and seamless solution was required, with workers ready to start the next day.
- Two workers were found less than an hour after the job posting was uploaded to the app.

outcome

Implementing the Randstad app enabled the company to fulfill its staffing needs swiftly, ensuring timely assistance for packaging. The open positions were filled quickly, and the workers were praised for their performance. The successful experience led the client to consider extending the staffing arrangement and exploring the potential for temporary-to-permanent positions. Since this first experience with the Randstad app, the client has continued to post shifts regularly when needed on the app.

- Number of placements: 2 workers
- Fill rate: 100%
- Speed to hire: Less than one hour from shift posting to placement

“ Both workers are here and are great candidates. I’m definitely keeping them for longer than two weeks.

- Executive Vice President,
Printing Company.
