

success story

how the randstad app delivers
temporary staff seamlessly
during peak season.

partner for talent.

challenge

During Black Friday, a logistics company faced a seasonal spike, requiring additional staff to handle operations. The client immediately needed 10 temporary workers to assist with packaging and order fulfillment starting the following day. Due to the high volume of orders, a delay in staffing could result in missed deadlines and unsatisfied customers.

solution

Randstad leveraged the Randstad app to fulfill the staffing requirements quickly. The client posted the positions through the app, and within a few hours, the Randstad app filled all 10 roles with qualified candidates. The swift response and ease of use helped the client avoid delays during their busiest period, preventing potential revenue loss.

- The client posted the positions at 9 a.m. on the shift, and by 11 a.m. that same day, all 10 positions were filled.
- The Randstad app made it easy for the client to connect with qualified workers quickly.

Randstad app

at a glance

- A tight deadline during Black Friday and high-volume orders increased the need for workers.
- An immediate need for 10 temporary workers starting the next day for a two-week contract.
- The company required a quick and efficient staffing solution.
- 10 workers were found within 2 hours.

outcome

The quick use of the Randstad app allowed the logistics company to fill all 10 roles in a matter of hours, ensuring that operations were fully staffed and that deadlines were met. The company was pleased with the speed of service and the quality of the candidates, which allowed them to maintain efficiency during their peak season. Since then, they have regularly used the app to meet staffing needs.

- Number of placements: 10 workers for 2 weeks
- Fill rate: 100%
- Speed to hire: 2 hours from posting to filling all positions

“ Thanks to Randstad, we were able to meet our deadlines and keep our customers happy. The process was seamless, and the workers were great.
